

The Olansky Files

January 24, 2006

Many FCICA members met Howard for the first time when he acted as a moderator of a FCICA panel discussion or another industry seminar such as the "Moisture In Concrete" series I did with Howard in New York and St Louis several years ago. His good humor and grasp of the commercial flooring business make him a fantastic moderator. Howard has supported me in my work as a columnist for National Floor Trends and Floor Covering Installer magazines.

In business, as in life, it is the people you meet and the friends you make along the way that make a difference. I can't imagine a better friend to the industry, to the FCICA, or to me personally than Howard Olansky.
